

1. When PDF is being attached it doesn't show a thumbnail of the PDF – plz see <https://www.loom.com/share/f11f156da79a45b6846a14324db71d1d> -this is a big issue but its much nicer if Admin can see the PDF was successfully attached before they click submit button
2. Plz change the words “Proof of Request” to “Supporting Document” [also must show the same for User, not just Admin]
